PROFESSIONAL SUMMARY

Result-driven **Senior QA Engineer** with over 11 years of experience designing, scaling, and maintaining robust test automation frameworks. Specialized in **Cypress (End-to-End & Component Testing)**, **Playwright**, TypeScript, and API testing. Proven track record of accelerating delivery pipelines by integrating **AI-powered tooling** to optimize test generation, debugging, and framework migration. Adept at leading QA strategies within CI/CD pipelines to ensure high-quality software delivery.

TECHNICAL SKILLS

Automation Frameworks: Cypress (E2E & Component), Playwright, Selenium WebDriver, Katalon Studio

AI & Productivity Tools: GitHub Copilot, Claude, Gemini, Glean

Languages & Web Tech: TypeScript, JavaScript, REST API, SQL

CI/CD & DevOps: Buildkite, Git, SourceTree, VM VirtualBox

Testing Utilities: Postman, Lighthouse, Puppeteer, Percy (Visual UI), XRAY, TestRail, JIRA

Database Technologies: SQL Server, NonSQL Server (MongoDB)

Operating Systems: Microsoft Windows, MacOS

WORK-RELATED EXPERIENCE

Senior QA Engineer – SiteMinder

April 2021 – Present

- Architected and scaled **Cypress End-to-End and Component Testing** frameworks utilizing TypeScript, significantly reducing regression testing cycles.
- Collaborated on the migration of **Cypress scripts to Playwright** by leveraging advanced AI tools and Claude to accelerate code translation and framework refactoring.
- Integrated **AI-driven development tools** into the QA workflow, utilizing AI assistants to rapidly generate mock data and refactor flaky scripts.
- Designed and executed API testing strategies using Postman and automated visual regression workflows via Percy.
- Optimized application performance tracking by establishing baseline testing metrics with Lighthouse and Puppeteer.
- Managed seamless CI/CD integration using Buildkite, ensuring robust automated gates for production deployments.
- Created and executed test cases based on user stories, tasks, design documentation and other sources using TestRail and XRAY.
- Monitored and updated database via Sequel Ace and Sequel Pro, and tracked unnecessary website errors in Graylog.

Senior QA Analyst – RedPoint Global Inc.

July 2018 – April 2021

- Spearheaded front-end automation execution using Cypress, improving test coverage across core product modules.
- Developed and maintained comprehensive back-end REST API automated test suites using Telerik Test Studio.
- Managed, maintained, and tracked defects and resolutions using Visual Studio and version control via SourceTree.
- Involvement in the requirements and design phase to ensure comprehensive test coverage and developed robust regression repositories.

QA Tester – Bank of the Philippine Islands (BPI)

March 2018 – July 2018

- Served as a Big Data (Hadoop) Tester, executing ETL Testing using Hue and SQL Developer.
- Responsible for Technical Specification Analysis, creation and execution of test cases, and defect tracking.

Senior QA Engineer – Betica Technology Solutions

May 2015 – March 2018

- Automation Testing for Web Applications using Selenium WebDriver and Katalon as Testing Tool and Java/Groovy as Programming Language.
- Functional and non-functional testing of Software, Websites and Mobiles.
- Test Plan creation, executing SQL Queries, and REST API regression testing using Postman, SOAPUI and Basic JMeter.
- Mentoring of junior team members and handled the reproduction, validation, and speedy resolution of client-reported issues.

Quality Assurance Engineer – YONDU IT Solutions

May 2014 – May 2015

- Analyzed and verified business and system requirements to design and execute comprehensive test cases.
- Executed Regression Testing, SQL Database (Microsoft SQL Server), and worked with Electronic Data Interchange (XML, EDIFACT, X12).

Associate Systems Integrator – Delphi Automotives Project (GXS Phils. Inc.)

August 2012 – May 2014

- Delivered bulk and/or one-off implementation requests of Trading Partner configurations into the GXS Managed Services systems.
- Deployments and Testing of Profiles, Trading Relationship and Maps (850, 855, 856, 810, 832) while providing 3rd level support.

EDUCATION

Mapua Institute of Technology (MIT)

2008 – 2012

Bachelor of Science in Information Technology

Major in HP-UNIX Administration
